

Robbing Our Pensions (Tune John Brown's Body)

When Maxwell took his final dip way back in '91
Not many shed a tear when they heard that he had gone
But there was total outrage when they saw what he had done
HE HAD ROBBED THE PENSION FUND

Chorus

They are robbing all our pensions
They are robbing all our pensions
They are robbing all our pensions
Which is why we STAND and FIGHT

Many years later we saw Cameron on the rise
With his gang of wealthy cronies and their beady greedy eyes
With many puffed-up speeches they soon quickly spread their lies
So they could ROB OUR PENSION FUND

Chorus

"We will change your index linking so you'll end up getting less
We will raise your contributions, as I'm sure you could've guessed
Cheered on as always by the toxic right-wing press
We will ROB YOUR PENSION FUND"

Chorus

So to Cameron, Gove and Osborne and to all the wrecking crew
Our message is quite simple so we'll tell it straight and true
We are all together and prepared to fight this through
We'll PROTECT OUR PENSION FUND

Chorus

It's time to stop your pilfering, we want our money back
We can suggest a better way to get from red to black
Chase after all those millionaires who never pay their tax
FINGERS OFF OUR PENSION FUND

Chorus (x2)
